

TD centring grommets S (sliding point)

Cross references

JT3-LT-TD-3-5.5
 JT4-LT-TD-3-5.5
 Cordless screwdriver
 ASCM QSW
 LT/STS Tool

Application range

- > For fastening facade claddings in combination with LT-TD screws with head diameter 16 mm
- > To form sliding points

Properties

- > Black coloured plastic
- > UV-resistant
- > Snap-on feet
- > Thin grommet edge (0.3 mm)

Advantages

- > No scratching of the panel surface
- > No impairment of dilatation in all directions

Notice

Usability of grommets and LT screws must be agreed with the respective panel manufacturer. Please note the respective approval for the exterior wall cladding and the assembly instructions of the manufacturer.
